Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The rejection of claims 12-18 have been withdrawn in light of applicants' comments and the Declaration of Yamaoto submitted under 35 USC 132.

Claims 19-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishii et al US 6235851, Dearborn DN 48:13253 (1953) abstract and Ciba DN 57:75868 (1962) abstract.

Ishii et al teach polymerizable adamantane compounds corresponding to those recited in claim 20. See, for example, column 3 lines 1+ and column 6 lines 27-30. It is noted that -OR groups are known protective groups for COOH substituent groups in adamantane compounds. See column 6.

As to claim 19 drawn to the process of making, see the respective abstracts. Dearborn and Ciba both teach polysubstituted -oxy methylene epoxy polycyclic hydrocarbon compound corresponding to that recited in the claim. See, respectively RN 27610-47-5 and RN 98520-41-3. The references differ in the

polycyclic hydrocarbon compound. However to use somewhat different but otherwise analogous starting materials in an otherwise known process would have been obvious to one of ordinary skill in the art as the results a polysubstituted polycyclic hydrocarbon would not have been unexpected. As to applicants' comments to produce protected groups at the claimed substituent positions would have been obvious in view of the teachings of Idhii et al.

Claims 12-18 are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
